WEDNESDAY, SEPTEMBER 6, 1899.

GOVERNOR MOUNT has accepted an invitation to make several speeches in Ohio during the campaign in that State.

CONGRESSMAN GRIFFITH has made a contribution of \$10 to the fund being raised for the improvement of "Stoney Lonesome" a piece of rough road between Columbus and Nashville. It is now in order to strike Overmeyer to go him one better.

THE appointment of Bruce Davis to succeed his late father as trustee of Redding township will doubtless give general satisfaction. He is familiar with the business of the township and can at once assume full charge of the office.

It was given out Tuesday evening that Auditor Durnent would not contend for the right to appoint a successor of the late Martin Davis. He claims to have appointed Ed. Miller on Saturday evening though there was no record to that effect. The commissioners wanted to make the appointment and as there was no record of any appointment made by the auditor prior to their regular meeting on Monday it would seem that they had a legal right to make the appointment. But whatever of difference there may be between the commissioners and auditor in this matter is for them to adjust. It is not our fight.

Why the Difference.

The total estimates in Bartholomew county for next year amounts to \$70,691.26. In Johnson county where the population is at least 6,000 less, the estimates make the grand total of \$116,381.85. Why this difference? Will the county Council find out?—Franklin Star.

But in Jackson county with the estimates of the county assessor and two township assessors out the estimates foot up \$150,612.78. The county commissioner alone want \$125,001.13 to disburse. So we can say with emphasis, why this difference.

HOTTEST OF RECORD!

One Hundred in The Shade!!

Tuesday was the hottest day noted here since the weather records have been accurately kept. The minimum temperature was 72 degrees, the maximum was 100 degrees; and the mean, 86 degrees, was eighteen degrees above the normal for the month. The atmosphere was abnormally dry, the relative humidity for the day being only 44 degrees, and for three successive mornings the dew formation has been hardly perceptible. The hourly readings by the official thermometer were:

7 a. m. 72,
8 a. m. 78,
9 a. m. 86,
10 a. m. 90,
11 a. m. 94,
12 m. 96,
1 p. m. 99,
2 p. m. 100,
3 p. m. 100,
4 p. m. 99,
5 p. m. 96,
6 p. m. 92,
7 p. m. 90.

Since 1887, there have been 43 September days on which the maximum thermometer reading was above 90 degrees. The nearest approach to the average heat of yesterday was on the 12th, 13th and 15th of September, 1897, when 96 degrees above were recorded and the mean was fourteen degrees above the normal. The monthly mean for 1881 was the highest of record since the establishment of the weather bureau. This noon, the official reading was 100 and the maximum of yesterday is likely to be exceeded, but the mean for the day will not be so high as the maximum reading this morning was two degrees below that of Tuesday. Incidentally, we note that only one-tenth of an inch of rainfall has been noted here since August 11, now 26 days.

Delays Are Dangerous.

It is now time the merchants were thinking about the kind of a booth to build for the Street Fair. They should remember that mechanics are very busy at present and it will be hard to get work done just when you want it. Every merchant, without any exceptions, should erect some kind of a booth. By so doing we will have the greatest fair ever held in the state. The committee reports everything in readiness, and it now depends upon the merchants to make it a great success.

SAVED BY MRS. PINKHAM.

[LETTER TO MRS. PINKHAM NO. 72,856]

"You have saved my life, snatched me from the brink of the grave almost, and I wish to thank you. About eighteen months ago I was a total wreck, physically. I had been troubled with leucorrhoea for some time, but had given hardly any attention to the trouble. At last inflammation of the womb and ovaries resulted and then I suffered agonies, had to give up my profession (musician and piano player), was confined to my bed and life became a terrible cross. My husband summoned the best physicians, but their benefit was but temporary at best. I believe I should have contracted the morphia habit under their care, if my common sense had not intervened. One day my husband noticed the advertisement of your remedies and immediately bought me a full trial. Soon the pain in my ovaries was gone. I am now well, strong and robust, walk, ride a wheel, and feel like a girl in her teens. I would not be without Lydia E. Pinkham's Vegetable Compound; it is like water of life to me. I am very grateful and sincerely thank your remedies. I hope some poor creature may be helped to health by reading my story."—Mrs. Col. E. P. RICHARDSON, RHINELANDER, Wis.

WINE OF CARDUI

A SURE MEDICINE.

HANDSOM, Va., Dec. 31.
I have been suffering from female weakness for four years, and have taken many medicines, but Wine of Cardui and Black-Brought have done more for me than anything else.
MRS. CAROLINE EVANS.

Wine of Cardui

It is a mistake to take any and every kind of medicine when you are sick. There is danger in it. Most of the so-called cures for "female weakness" do nothing more than deaden the pain temporarily, and when the effect wears away the patient is weaker and sicker than before. It is never wise to take chances. You have only one life, and that is dear and precious. If you have any pain, ache, disorder or weakness in the female organs, nothing will help you like Wine of Cardui. It helps do away with morning sickness during the early stages of pregnancy, and modifies the pains of childbirth; recovery is rapid and future health is assured. The Wine is purely vegetable, being made of herbs whose medicinal properties act directly upon the organs of womanhood. It is a long-tried remedy, and has many years of success behind it. It is sure. Why take a chance medicine when you can get a sure medicine?

Druggists sell Large Bottles for \$1.00.

S. I. FIREMAN HURT.

Luther Wright Leaned Too Far Out the Cab Window.

This forenoon when the east bound
freight on the Southern Indiana reach-
ed Surprise the crew found some
switching to do there. It was while
doing this that Luther Wright,
the fireman, met with an accident that
may cost him his life.

While making a running switch and
the engine was passing on the track
closest to the depot, Wright had his
head out of the cab window watching
for signals. He was leaning so far
out that his head struck a projection
of the depot roof, cutting an ugly gash
in the scalp and fracturing the skull.

He was hastily brought here and tak-
en to the office of Dr. Gerrish, the lo-
cal surgeon of the road. The skull
was found to be badly fractured but
the wound was carefully dressed and
it is believed that the unfortunate man
may recover.

This afternoon he was restored to
consciousness and taken to the home of
L. H. Balsley where he will be cared
for. Some member of his family is
expected here this evening from West-
port.

Wright has been in the employ of
the road quite awhile and was an
efficient railroader.

The great good that Morrow's Kid-
ne-oids are doing in Indiana for all
forms of Kidney and urinary disor-
ders is being daily told by our citizens.
All who use Kid-ne-oids for backache,
dizziness, sleeplessness, nervousness
and general debility give hearty ex-
pression of the quick relief they ob-
tained.
Miss Julia Schwab, 138 Ferry street,
Lafayette, Ind., says: "I have been
troubled with kidney backache for over
a year; my back ached so severely at
times that I could scarcely do anything
but complain. I was nervous and
sleepless, in fact I would often arise
in the morning more tired than when I
went to bed. The doctor said I had symptoms
of kidney disorder but this statement
gave me no relief. When I heard and
read about Morrow's Kid-ne-oids I
resolved to try them. I read carefully
the directions and followed them; I
was relieved of the pain in my back.
Since then I have otherwise improved
and today I am a happy girl."
Morrow's Kid-ne-oids are not pills,
but Yellow Tablets and sell at fifty
cents a box at all drug stores and Al-
pha Cox's.
Mailed on receipt of price. Manu-
factured by John Morrow & Co., Chem-

Beautiful Indian Springs.
This property has lately been secured by
the Southern Indiana Hotel Co. The old ho-
tel has been demolished and a new one is now
in course of erection. This will be a mag-
nificent stone structure with all modern im-
provements; but will not be ready this season.
There has always been more or less excu-
sion business and parties who go there to en-
joy the water. The dance hall, spring house,
summer pavilion, bowling alley and club
house have been left standing and may be
used by excursionists and picnic parties.
To accommodate this business the Southern
Indiana Railway will put in rates for excu-
sion parties and picnics; and has also ar-
ranged special Sunday train schedules, giving
patrons along the entire length of the line an
opportunity to spend the day at the Springs
and return home the same evening.

Deafness Cannot be Cured
By local applications as they cannot
reach the diseased portion of the ear.
There is only one way to cure deaf-
ness, and that is by constitutional
remedies. Deafness is caused by an
inflamed condition of the mucous lin-
ing of the Eustachian Tube. When
this tube is inflamed you have a rum-
bling sound or imperfect hearing, and
when it is entirely closed, deafness is
the result, and unless the inflammation
can be taken out and this tubestored
to its normal condition, hearing will
be destroyed forever; nine cases out of
ten are caused by catarrh, which is
nothing but an inflamed condition of
the mucous surfaces.
We will give One Hundred Dollars
for any case of deafness (caused by
catarrh) that cannot be cured by Hall's
Catarrh Cure. Send for circulars;

Spanish-American War Panorama
Is one of the war books which is like-
ly to be a continuous demand. It is
a panoramic record of the triumph of
Yankee Doodle. The eagle flaps his
wings on every page, and "Old Glory"
waves around and above every scene.
Prominent officers connected with the
war are here portrayed, as well as
many of the "men behind the guns."
Military life is pictured to the eye
from recruiting to guard mount and
skirmish line. Nor is the ludicrous
omitted. The company cook receives
the attention due to his importance
the mess is shown; cavalry scenes a
given; the hospital arrangements are
depicted; the heroines of the Red
Cross service are displayed; street
scenes in Havana, Santiago and else-
where are unrolled, the new citizens or
subjects (which are they?) of Uncle
Sam, appear and disappear as the
scenes are turned.

Drunk, Grain-O.
If ever you have concluded that you
ought not to drink coffee. It is not a
medicine but doctors order it, because
it is healthful, invigorating and appe-

taste like the finest grades of coffee
and costs about 1/4 as much.
Children like it and thrive on it be-
cause it is a genuine food drink con-

BOYS IN BLUE MARCH

The Great Parade of the Grand Army at Philadelphia.

REVIEWED BY M'KINLEY

Over Six Hours Passing the Reviewing Stand—Tremendous Crush of Eight Scores—Over Four Hundred People Overcome by Heat While Watching the Marchers.

Philadelphia, Sept. 6.—The number of old veterans in the great parade yesterday was estimated at over 40,000. When Independence Hall was reached by the marchers caps were raised and colors dipped. Along the 5-mile line of march the crowd was tremendous. From the fronts of the buildings to the curb the people were packed in a solid mass and even breathing was difficult. As a result of the crush about 400 men, women and children were overcome and taken from the crowd to various hospitals.

With President McKinley and Mayor Ashbridge there were on the reviewing stand: Rear Admiral Melville, Rear Admiral W. T. Sampson, Captain F. E. Chadwick, Captain H. C. Taylor, Captain C. D. Sigbee, Captain C. J. Train and a score of other officers of the North Atlantic squadron; Secretary of War Elihu Root, Secretary of Agriculture James F. Wilson, Jacob G. Schurman of the Philippines commission; secretary to the president, J. A. Porter, and assistant secretary to the president, George B. Cortelyou.

The parade was six hours and 10 minutes in passing the reviewing stand. After a portion of the department of Pennsylvania had passed (these veterans bringing up the rear), the president left to visit Admiral Sampson's fleet, Governor Stone reviewing the remainder of the procession.

At the head of each organization marched military bands and drum corps, and as the veterans moved proudly along the streets tumultuous applause greeted them and a sea of handkerchiefs and small flags waved in admiration and welcome.

When the Ohio posts appeared the aged veterans became wild with enthusiasm. One veteran broke ranks and, standing before his comrades, shouted: "Three cheers for the biggest man on earth—William McKinley of Ohio." This invitation for cheers was followed by a mighty roar, which was echoed and re-echoed among the spectators for blocks.

As the various posts passed in review the president stood smiling and bowing, and on numerous occasions waved his hand to the more enthusiastic of the marchers. When the torn battleflags were dipped in salute he joined in the applause by clapping his hands.

After leaving the reviewing stand the president was entertained at luncheon in the rooms of the department of public works. Mr. McKinley enjoyed the occasion with the spirit of a man untroubled with high official honors and the cares of a nation.

SQUADRON INSPECTED

President Visits the Great Warships Under Command of Sampson.

Philadelphia, Sept. 6.—President McKinley late yesterday afternoon visited the squadron commanded by Admiral Sampson. With the chief executive were Secretary of War Root, Secretary of Agriculture Wilson, Lieutenant Commander Winslow, Mayor Ashbridge, United States Senator Howell, Director of Public Works Hadcock and Director of Public Safety English.

The visit of the president to the squadron proved the greatest maritime spectacle ever seen here. It was the in-

Doctors' Costly Visits.

Sickness in the family is hard enough to bear under the best of conditions. It almost always cuts off part of the regular income, and when on top of that it adds to the expense of the family, it is almost unbearable.

With pleasure I write to you about a medicine which I have used and which has saved me from a great deal of the sickness itself.

"Doctor's visits come high," says Mrs. B. P. Howard, of Glen Ellen, Sonoma, Cal. "I have been in this place sixteen years and have time, thanks to Dr. Pierce's Common Sense Medical Adviser, which I cannot do without it for another copy." Another lady, Mrs. Jennie Warren, of Clifton, Graham Co., Arizona, says: "I have had two copies but cannot for another copy." I enclose a card at once stamps with pleasure I write to you about a medicine which I have used and which has saved me from a great deal of the sickness itself.

attention to have Mr. McKinley to visit only the New York, but he grew so enthusiastic over the great fighters that he suddenly made up his mind to inspect all of them. Accordingly, he visited the flagship New York, the cruiser Brooklyn and the battleships Indiana, Massachusetts and Texas. It was his intention to also visit the cruiser Detroit, but, much to his regret, he was unable to do so on account of lack of time. There was also a continuous roar of guns during the one and three-quarter hours that it took to inspect the vessels. In all 403 guns were fired by the squadron in president's salute.

When official information came to the fleet that the president of the United States would visit the squadron, signals were run up on the flagship to "clear ship for action and prepare for action," and "prepare to receive the president." Everything was bustle on the six big vessels and the decks of all of them were soon stripped of every movable article.

The president was first to step on board of the flagship from the stepladder that hangs over the New York's side and as he did so the entire squadron belched forth the president's salute of 21 guns, or 126 guns in all. The bands of all the ships simultaneously played "Hail to the Chief."

The president was received at the gangway by Rear Admiral Sampson and the staff officers of the ship, who were in special full dress uniform. The rail was manned by the men during the formal greeting. The call to quarters was then sounded and every man on board ship sprang to his place just as though an engagement was about to start. The president was then shown over the whole ship.

The same proceedings occurred on each vessel as the president stepped aboard as had taken place on the New York. The president expressed himself as highly gratified with what he had witnessed.

YELLOW FEVER

Slowly Spreading at Key West—Forty Cases.

Key West, Sept. 6.—Dr. Porter, chief executive of the state board of health, has sent out the following information in a dispatch: "There are about 40 cases of yellow fever up to date and five deaths. The disease is slowly spreading. The hospital has been organized and the island is well patrolled by water. Tortugas will be used as a detention camp which will be opened in three or four days. There is no excitement at Key West."

For Dewey's Reception.

Washington, Sept. 6.—Preparations for the reception of Admiral Dewey in this city are rapidly assuming shape and from the programme, even in its present incomplete condition, the celebration will be one of the most noteworthy that has ever occurred in Washington. The admiral's reception here will be largely in the nature of an official function, as its central feature will be the presentation of the magnificent sword voted to him by congress. The celebration will take place on the night of Oct. 2 or 3.

Texas Antitrust Delegation.

Chicago, Sept. 6.—A telegram has been received at the headquarters of the civic federation from Governor Joseph D. Sayers of Texas announcing 11 delegates to the conference on trusts and combinations which begins in this city Wednesday, Sept. 13. The Texas delegation is regarded as a strong one and is expected to urge what is called the Texas idea of uniform state legislation to deal with the trust question.

Dewey's Favorable Opinion.

Gibraltar, Sept. 6.—Admiral Dewey expressed a favorable opinion yesterday as to the outcome of the war in the Philippine islands, saying that he hoped the next dry season would see the insurrection quelled. The admiral said that he did not expect to go on sea service again except in the event of war, and that he will probably retire under the regulations.

Want an Increase of Wages.

TELEGRAPHS EMPERORS

Germany and Italy to Grant Permission to Colonels Schwartzkoppen and Panizzardi to Come to Rennes to Testify—Opportunity of Emperor William to Pose as an Arbitrator.

Rennes, Sept. 6.—M. Labori has telegraphed personal appeals to Emperor William and King Humbert to grant permission to Colonels Schwartzkoppen and Colonel Panizzardi, German and Italian military attaches in Paris in 1894, to come to Rennes to testify in the trial of Captain Dreyfus. This is the news of the day and the chief topic of conversation in the cafes and resorts of the journalists.

The appeals were couched in elegant terms, invoking the assistance of their majesties in the name of justice and humanity. They are quite supplementary to the formal application that will be made by the government commissary, Major Carrière.

The demand of M. Labori that the courtmartial should issue process, subject to the approval of the two sov-

elgus, came like a thunderbolt at yesterday's session. The step is fraught with momentous consequences as it affords Emperor William an opportunity again to assume his favorite role of arbiter of the destinies of the world. No one will be surprised if Colonel Schwartzkoppen, in the name of the kaiser, makes a declaration that will practically decide the result of the trial. Both Schwartzkoppen and Panizzardi must consult their respective sovereigns before starting, but the counsel for Dreyfus fully expect them to arrive here, if they come at all, in time to give their testimony, in which case the trial would probably conclude this week and the verdict be delivered on Friday or Saturday. This is the view that obtains now, differing somewhat from the feeling during yesterday.

Colonel Jouanet told M. Demange at the close of the session last evening if he received official notification that Colonels Schwartzkoppen and Panizzardi were coming to depose he would be prepared to adjourn the trial pending their arrival. An adjournment of 48 hours would probably give them time to get here.

The appearance of Colonels Schwartzkoppen and Panizzardi would be the most sensational as well as the most important incident of the entire trial. Their depositions would be a formal and emphatic declaration that they never had any relations with the accused, and they would make such a statement that the court must order an acquittal. Those who are in the confidence of the counsel entrusted with the defense express a firm conviction that Dreyfus will now be acquitted. Nevertheless, one of the most prominent generals, with whom the press correspondent conversed yesterday, declared himself "quite pleased with the progress of the trial thus far," and confident of a conclusion "eminently satisfactory to the prosecution."

Today's session opened this morning with closed doors to hear from Cernuschi, the Austrian political refugee, the name of the foreign attaché he has already mentioned as admitting that he had received treasonable documents from Dreyfus. The remainder of his evidence will be given in public.

According to a rumor now going the rounds, the name of the foreign agent who, as Cernuschi declares, showed him documents from Dreyfus revealing French military secrets, is Gerschell. The latter is said to be an Austrian officer who passed three months in Paris about the time that Dreyfus was arrested.

Senator Trionx, who testified yesterday, will probably be confronted by Generals Mercier, Gouze, Du Boisdeffere and Rogot.

After that, it is understood, the deposition of Colonel Du Paty de Clam will be read, Major Tavernier, who examined him, having arrived at Rennes. This practically completes the list of depositions, unless, as is probable, Du Paty de Clam's testimony leads the defense to summon witnesses to controvert his statements.

It is reported that the minister of war, General The Marquis de Gallifet, has sent orders to the generals and other military witnesses to leave Rennes and return to their respective posts within two hours after the conclusion of the depositions, and not to be present during the pleadings. They will thus be absent when the verdict is delivered. General Mercier being on the retired

list, is not affected by this order, but Generals Rogot, Gouze and Du Boisdeffere must go. These orders are intended to prevent the moral effect of their presence in the courtroom while the judges are deliberating as to their verdict, and perhaps to prevent something even worse than moral influence.

TO SHUT OFF SUPPLIES

Government Considering an Effective Blockade in the Philippines.

Washington, Sept. 6.—The matter of making an effective blockade in the Philippines, and especially around the island of Luzon, so as to prevent the insurgents from obtaining ammunition and supplies, is one that is giving the administration considerable concern. It has not been deemed feasible to proclaim a blockade, as it would indicate a state of war and possibly open a way to the recognition of the insurgents.

Whether or not it is feasible to attack, subdue and garrison all the ports of Luzon which might serve as ports of supply for the Filipinos has not yet been determined.

Heretofore there have not been sufficient troops in Luzon to make this possible, and the question will now arise whether troops had best be spared for this purpose.

The president has been advised that the navy should be utilized for the purpose of preventing the introduction of contraband of war and supplies for the Filipinos.

At every port a naval vessel could be stationed, and under the military law of the island every incoming vessel could be made to exhibit its manifest. One trouble about carrying out this plan is the fact that there is not a sufficient number of light draught vessels to go into all the places where the Filipinos can receive their supplies.

Will Sail For Manila.

Washington, Sept. 6.—Dates have been set for the departure of three regiments of volunteers for the Philippines. One half of the Thirty-fourth, Colonel Kennon, will sail on Sept. 8 on the Columbia, the remainder of the regiment on Sept. 16 on the Belgian King. The Thirty-first, Colonel Pettit, will sail on the 15th on the Sherman and the Twenty-seventh, Colonel Bell, will sail on the 18th on the Grant.

Philippine Receipts.

Washington, Sept. 6.—The war department has received by cable from Manila the receipts from all sources at the three principal ports in the Philippines in the month of August. The total receipts amount to \$667,618. The customs receipts were \$618,908. By ports the customs receipts are, Manila, \$429,000; Iloilo, \$111,000; Cebu, \$70,200.

Mr. Gould will sail for New York in a few days in order that he may be able to see the race for the American cup between the Columbia and Shamrock.

Charles E. Blenheim.

Denver, Sept. 6.—"I never knew Charles E. Blenheim," said Wolfe Loudon, ex-mayor and one of the most prominent business men of this city, referring to the man now at Atlanta, who has revealed the alleged methods by which state secrets were transmitted from France to Germany, and who said that he was born in Denver 38 years ago. "I think it is a fake name," said Mr. Loudon, "for there were not many people here in 1861, and I would have known his father if he had really been born here."

Bankers' Convention.

Cleveland, Sept. 6.—With about 600 bankers from all over the country, and a third as many spectators who were not members, present, the 23rd annual convention of the American Bankers' association began its first session in the auditorium of the chamber of commerce yesterday. For the most part the day was devoted to routine business and none of the discussions that are to be the main features of the convention was begun.

Terre Haute, Ind., Sept. 6.—Harry Fisher of the Sixteenth regular infantry at Manila, writes as follows to his cousin, Edward Fisher, in this city:

"Opinion in the states is wrong. We simply hold Manila and the camping ground of General MacArthur's division at San Fernando, 40 miles north. Little seems to have been accomplished. Many more troops are necessary."

ASSASSINATED

Mysterious Murder of a Business Man at Munster, Ind.

Munster, Ind., Sept. 6.—Elmer Hamilton, 28 years old, was found in an unconscious condition in a lot in the southern portion of the city yesterday. He was taken to the Whitney hospital where he died later. His face was beaten into an unrecognizable mass. A club with which the murder was committed was found near the place. It was about five feet long and had been broken in two by the force of the blow. The lot where Hamilton was found is surrounded by houses, but no one seems to know anything about the occurrence. Hamilton and his father are in the lime and building material business, but the deceased never carried a great amount of money with him. The affair is a mystery.

WILEY INDICTED

Charged With the Murder of an Inmate of Marion Soldiers' Home.

Jonesboro, Ind., Sept. 6.—Samuel Wiley, who killed James K. Terrell, an inmate of the Soldiers' Home at Marion, while celebrating at a wedding in this place on the night of June 28, has been indicted for murder by the Grant county grand jury. The murder resulted from a discussion over the prowess of the two men, after having indulged liberally in free beer. Wiley is an athlete, and his victim had been one of the best men physically in the county during his younger days. The argument resulted in Wiley beating Terrell to death with his fists and a club.

SURGEON SUICIDES

Dr. Durham Leaps From the Transport Grant While Crazy With Fever.

Crawfordsville, Ind., Sept. 6.—Isaac Montgomery, a prominent citizen of this county, has received word of the tragic death of his grandson, Dr. Fred Durham of the United States medical service. Dr. Durham was with the troops at Manila, and being seized with a lingering fever he was ordered home. He shipped on the transport Grant, and when three days out disappeared. It is supposed that while temporarily insane he jumped overboard. The young man was a son of Thomas Durham, formerly of this county, but now a resident of Kansas.

Married in Jail.

Brazil, Ind., Sept. 6.—Miss Flora Steel and James Hibbs of Greencastle were married in jail here. Sometime ago the girl came here from Greencastle and was arrested for evil association. Later Hibbs arrived and visited her at the jail. He proved to be a sweetheart and prevailed on the girl to consent to an immediate marriage. A license was procured, the court set aside its judgment and the ceremony was performed. Hibbs says the woman was homeless and friendless, but at heart a good woman.

Killed Making a Running Switch.

Indianapolis, Sept. 6.—George Kramming, a Big Four switchman, was killed in the Mooresfield yards yesterday while making a running switch. In passing over a rough place he was thrown from the engine and fell under the wheels. One foot was crushed off, his knee dislocated and his skull fractured. Kramming was 33 years old and unmarried.

Second Crop of Strawberries.

AT THE BANQUET

Abstract of President McKinley's Speech.

Philadelphia, Sept. 6.—President McKinley at the Grand Army banquet last night at the Academy of Music, spoke as follows:

"I do not intend to make a speech at this time. I merely want to say that it is a great pleasure to me to be a guest of three great posts of the Grand Army, Kingsley, Meade and Lafayette."

"It has given me genuine pleasure to greet so many of my old comrades in this city of historic memory and patriotic devotion, for I assure you that all the goodness and greatness of Philadelphia is not in the past. I could not help but reflect as I passed through the 'Avenue of Fame' what a volume of history its portraits told."

"The history of the achievements of the army, as well as the navy, made well and clear by familiar faces; familiar in that great struggle. Our great commanders were there—Ulysses S. Grant, Sherman, Sheridan, Meade, Hancock and Farragut—and while old ocean's breast bears a white sail they will be remembered. And not only in that gallery of heroes is found the great captain, but the private soldiers of the army. He who has no insignia of rank but the blue blouse."

TRIAL TRIP

First Class Battleship Kearsarge Makes a Record of 17 1-2 Knots.

Newport News, Va., Sept. 6.—The official reading of the log gave the first class battleship Kearsarge, which went on her trial trip yesterday, a record of 17 1/2 knots, which speed was maintained for nearly half an hour. Those interested in the construction of the splendid vessel consider her accomplishment as phenomenal in view of the fact that the course was in shallow water and that the vessel's bottom is in a pretty filthy condition, having been in the water continuously for nearly 18 months. The steam and hand steering gear were subjected to the most severe tests, the mass of steel and iron responding to her wheel almost as readily as a steam launch. On one test she made a semi-circular turn in 2 1/2 minutes. Captain Folger, who is to command the Kearsarge, and the other naval officers on board expressed themselves as highly pleased with the result of the trip.

WEDNESDAY, SEPTEMBER 6, 1899.

GOVERNOR MOUNT has accepted an invitation to make several speeches in Ohio during the campaign in that State.

CONGRESSMAN GRIFFITH has made a contribution of \$10 to the fund being raised for the improvement of "Stoney Lonesome" a piece of rough road between Columbus and Nashville. It is now in order to strike Overmeyer to go him one better.

THE appointment of Bruce Davis to succeed his late father as trustee of Redding township will doubtless give general satisfaction. He is familiar with the business of the township and can at once assume full charge of the office.

IT was given out Tuesday evening that Auditor Durnant would not contend for the right to appoint a successor of the late Martin Davis. He claims to have appointed Ed. Miller on Saturday evening though there was no record to that effect. The commissioners wanted to make the appointment and as there was no record of any appointment made by the auditor prior to their regular meeting on Monday it would seem that they had a legal right to make the appointment. But whatever of difference there may be between the commissioners and auditor in this matter is for them to adjust. It is not our fight.

Why the Difference.

The total estimates in Bartholomew county for next year amounts to \$70,691.26. In Johnson county where the population is at least 6,000 less, the estimates make the grand total of \$116,381.85. Why this difference? Will the county Council find out?—Franklin Star.

But in Jackson county with the estimates of the county assessor and two township assessors out the estimates foot up \$150,612.78. The county commissioner alone want \$125,001.13 to disburse. So we can say with emphasis, why this difference.

HOTTEST OF RECORD!

One Hundred in The Shade!!

Tuesday was the hottest day noted here since the weather records have been accurately kept. The minimum temperature was 72 degrees, the maximum was 100 degrees; and the mean, 86 degrees, was eighteen degrees above the normal for the month. The atmosphere was abnormally dry, the relative humidity for the day being only 44 degrees, and for three successive mornings the dew formation has been hardly perceptible. The hourly readings by the official thermometer were:

7 a. m. 72,
8 a. m. 78,
9 a. m. 86,
10 a. m. 90,
11 a. m. 94,
12 m. 96,
1 p. m. 99,
2 p. m. 100,
3 p. m. 100,
4 p. m. 99,
5 p. m. 96,
6 p. m. 92,
7 p. m. 90.

Since 1887, there have been 43 September days on which the maximum thermograph reading was above 90 degrees. The nearest approach to the average heat of yesterday was on the 12th, 13th and 15th of September, 1897, when 96 degrees above were recorded and the mean was fourteen degrees above the normal. The monthly mean for 1881 was the highest of record since the establishment of the weather bureau. This noon, the official reading was 100 and the maximum of yesterday is likely to be exceeded, but the mean for the day will not be so high as the maximum reading this morning was two degrees below that of Tuesday. Incidentally, we note that only one-tenth of an inch of rainfall has been noted here since August 11, now 26 days.

SAVED BY MRS. PINKHAM.

[LETTER TO MRS. PINKHAM NO. 72,895]

"You have saved my life, snatched me from the brink of the grave almost, and I wish to thank you. About eighteen months ago I was a total wreck, physically. I had been troubled with leucorrhoea for some time, but had given hardly any attention to the trouble.

"At last inflammation of the womb and ovaries resulted and then I suffered agonies, had to give up my profession (musician and piano player), was confined to my bed and life became a terrible cross. My husband summoned the best physicians, but their benefit was but temporary at best. I believe I should have contracted the morphia habit under their care, if my common sense had not intervened.

"One day my husband noticed the advertisement of your remedies and immediately bought me a full trial. Soon the pain in my ovaries was gone. I am now well, strong and robust, walk, ride a wheel, and feel like a girl in her teens. I would not be without Lydia E. Pinkham's Vegetable Compound; it is like water of life to me. I am very grateful and sincerely thank you, my wisher, and I heartily recommend your remedies. I hope some poor creature may be helped to health by reading my story."

WINE OF CARDUI

A SURE MEDICINE.

HANDSON, VA., Dec. 31.

I have been suffering from female weakness for four years, and have taken many medicines, but Wine of Cardui and Black-Draught have done more for me than anything else.

MRS. CAROLINE EVANS.

Wine of Cardui

It is a mistake to take any and every kind of medicine when you are sick. There is danger in it. Most of the so-called cures for "female weakness" do nothing more than deaden the pain temporarily, and when the effect wears away the patient is weaker and sicker than before. It is never wise to take chances. You have only one life, and that is dear and precious. If you have any pain, ache, disorder or weakness in the female organs, nothing will help you like Wine of Cardui. It helps do away with morning sickness during the early stages of pregnancy, and modifies the pains of childbirth; recovery is rapid and future health is assured. The Wine is purely vegetable, being made of herbs whose medicinal properties act directly upon the organs of womanhood. It is a long-tried remedy, and has many years of success behind it. It is sure. Why take a chance medicine when you can get a sure medicine?

S. I. FIREMAN HURT.

Luther Wright Leaned Too Far
Out the Cab Window.

This forenoon when the east bound
freight on the Southern Indiana reached
Surprise the crew found some
switching to do there. It was while
doing this that Luther Wright,
the fireman, met with an accident that
may cost him his life.

While making a running switch and
the engine was passing on the track
closest to the depot, Wright had his
head out of the cab window watching
for signals. He was leaning so far
out that his head struck a projection
of the depot roof, cutting an ugly gash
in the scalp and fracturing the skull.
He was hastily brought here and taken
to the office of Dr. Gerrish, the lo-
cal surgeon of the road. The skull
was found to be badly fractured but
the wound was carefully dressed and
it is believed that the unfortunate man
may recover.

This afternoon he was restored to
consciousness and taken to the home of
L. H. Baisley where he will be cared
for. Some member of his family is
expected here this evening from West-
port.

Wright has been in the employ of
the road quite awhile and was an
efficient railroader.

published a large cut of the machine
with Editor Dipboye standing on the
top of the tower.—Columbus Times.

Drink Grain-O.

If ever you have concluded that you
ought not to drink coffee. It is not a
medicine but doctors order it, because
it is healthful, invigorating and appet-
izing. It is made from pure grains
and has that rich seal brown color and
taste like the finest grades of coffee
and costs about 1/2 as much.
Children like it and thrive on it be-
cause it is a genuine food drink con-
taining nothing but nourishment. Ask
your grocer for Grain-O, the new food
drink. 15 and 25c.

Advertised Letters.

The following is the list of letters re-
maining in the postoffice at this place,

to the coffee drinker. Coffee drinking
is a habit that is universally indulged
in and almost as universally injurious.
Have you tried Grain-O? It is almost
like coffee but the effects are just the
opposite. Coffee upsets the stomach,
ruins the digestion, effects the heart
and disturbs the whole nervous sys-
tem. Grain-O tones up the stomach,
aids digestion and strengthens the
nerves. There is nothing but nourish-
ment.

Does Coffee Agree With

If you drink Grain-O—made from
pure grains. A lady writes: "The first
time I made Grain-O I did not like it
but after using it for one week nothing
would induce me to go back to coffee."
It nourishes and feeds the system.
The children can drink it freely with
great benefit. It is the strengthening
balance of pure grains. Get a pack-
age today from your grocer, follow the
directions in making it and you will
have a delicious and healthful table
beverage for old and young, 15c

Deafness Cannot be Cured

By local applications as they cannot
reach the diseased portion of the ear.
There is only one way to cure deaf-
ness, and that is by constitutional
remedies. Deafness is caused by an
inflamed condition of the mucous lin-
ing of the Eustachian Tube. When
this tube is inflamed you have a rum-
bling sound or imperfect hearing, and
when it is entirely closed, deafness is
the result, and unless the inflammation
can be taken out and this tube restored
to its normal condition, hearing will
be destroyed forever; nine cases out of
ten are caused by catarrh, which is
nothing but an inflamed condition of
the mucous surfaces.

We will give One Hundred Dollars
for any case of deafness (caused by
catarrh) that cannot be cured by Hall's
Catarrh Cure. Send for circulars;
free.

**HUNDREDS VOLUNTARILY EN-
DORSE A SCIENTIFIC
PRODUCT.**

**A Statement by a Well Known Cit-
izen Who Has Found Great Re-
lief by Using It.**

The great good that Morrow's Kid-
ne-oids are doing in Indiana for all
forms of kidney and urinary disor-
ders is being daily told by our citizens.
All who use Kid-ne-oids for backache,
dizziness, sleeplessness, nervousness
and general debility give hearty ex-
pression of the quick relief they ob-
tained.

Miss Julia Schwab, 138 Ferry street,
Lafayette, Ind., says: "I have been
troubled with kidney backache for over
a year; my back ached so severely at
times that I could scarcely do anything
but complain. I was nervous and
sleepless, in fact I would often arise
in the morning more tired than when I went
to bed. The doctor said I had symptoms
of kidney disorder but this statement
gave me no relief. When I heard and
read about Morrow's Kid-ne-oids I
resolved to try them. I read carefully
the directions and followed them; I
was greatly surprised at the quick re-
lief they gave me, after the second dose
I was relieved of the pain in my back.
Since then I have otherwise improved
and today I am a happy girl."

Morrow's Kid-ne-oids are not pills,
but Yellow Tablets and sell at fifty
cents a box at all drug stores and Al-
pha Cox's.

Mailed on receipt of price. Manu-
factured by John Morrow & Co., Chem-

Spanish-American War Panorama

Is one of the war books which is like-
ly to be a continuous demand. It is
a panoramic record of the triumph of
Yankee Doodle. The eagle flaps his
wings on every page, and "Old Glory"
waves around and above every scene.
Prominent officers connected with the
war are here portrayed, as well as
many of the "men behind the guns."
Military life is pictured to the eye
from recruiting to guard mount and
skirmish line. Nor is the ludicrous
omitted. The company cook receives
the attention due to his importance
in the army; the cavalry scenes are
given; the heroines of the Red
Cross service are displayed; street
scenes in Havana, Santiago and else-
where are unraveled, the new citizens or
subjects (which are they?) of Uncle
Sam, appear and disappear as the
scenes are turned.

In a word, the gaz-
etteer visits the new
localities and sees the tumultuous new
life, without the risk or expense of a
sea voyage.
